KKE : Your Best Equipment Partner

- KKE Wash Systems has been manufacturing Vehicle Wash Systems since 1993. What that means is that we at KKE Wash Systems understand not just the equipment we also understand the Car Wash Business.

  Over the years, with continuous Research and Development based on the experiences and feedback of our customers has led to development of the complete range of equipment required for running the Car Wash Business.

  Today, thanks to the R&D, KKE Car Wash Machines are Rugged and Easy to Maintain like never before

1. Easy to Operate and Maintain
2. Onboard Control System
3. Rust Resistant Galvanised Sheet Structure
4. Standard Parts and Components

Automatic Car Wash System Types

Based on
Equipment Configuration

Rollover Systems

Floor Mounted Rails

- KKE X2
- KKE X1.1
- KKE Speedoclean
- KKE Wave

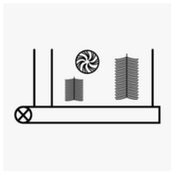

- Arrowclean

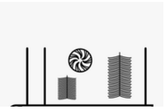

Conveyor Systems

- KKE Gamma 12m
- KKE Gamma 18 m
- KKE Gamma 24 m
- KKE Gamma 30 m

Fleet Wash

- KKE Z10

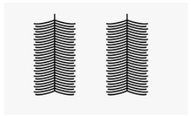

Automatic Car Wash System Types

Based on
Washing Technology

Brush / Friction

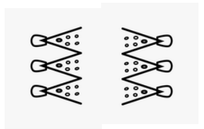

- KKE X2
- KKE X1.1
- KKE Speedoclean

- KKE Gamma
- KKE Z10

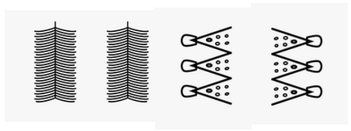

Touchless / High Pressure

- KKE Wave
- Arrowclean

Combination

- All Friction Car Wash Equipment can be added with High Pressure Systems to make it a combination System

KKE Speedoclean

Watch Video

KKE SpeedoClean is one of the best entry level equipment for starting a Car Wash Business. You might also call it a no frills equipment and gets the job done fast.

Wash Cycles (including optionals)

- Under Chassis Wash
- Prewash
- Soap Spray
- Brushing Cycle
- Wheel Brush
- Sealer Wax Spray
- Blowing

Throughput

6 -8 cars per hour

Washable Height Options

2m , 2.3m, 2.5m, 3m

KKE X1.1

KKE X1.1 is the first equipment in the X Series High End Car Wash Equipment.

Wash Cycles (including optionals)

- Under Chassis Wash
- Prewash
- Foam Spray
- Lava Foam Spray
- Brushing Cycle
- Wheel Wash
- High Pressure Wheel Blasters
- Sealer Wax Spray
- Triple Foam Wax
- Blowing

Throughput

6 - 10 cars per hour

Washable Height Options

2m , 2.3m, 2.5m, 3m

KKE X2

KKE X2 brings the luxury in car washing. High Tech Systems with a lot of options for your customers to choose from

Wash Cycles (including optionals)

- Under Chassis Wash
- Prewash
- Foam Spray
- Lava Foam Spray
- Bug Spray
- Brushing Cycle
- Wheel Wash
- High Pressure Wheel Blasters
- Sealer Wax Spray
- Triple Foam Wax
- Blowing

Throughput

KKE Gamma 12 is a 12 m conveyor suitable to fit in very less space. Suitable for replacing Rollover Systems in more or less the same space as Rollover

Wash Cycles (including optionals)

- Under Chassis Wash
- Prewash
- Foam Spray
- Lava Foam Spray
- Brushing Cycle
- Skirt Brushes
- High Pressure Wheel Blasters
- Sealer Wax Spray
- Triple Foam Wax
- Blowing

Throughput

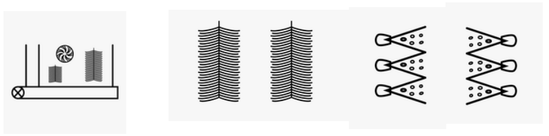

25 - 30 cars per hour

Washable Height

2.3m

KKE Gamma 18m

KKE Gamma 18 is a 18m conveyor with rugged conveyor.

Wash Cycles (including optionals)

- Under Chassis Wash
- Prewash
- Foam Spray
- Lava Foam Spray
- Brushing Cycle
- Skirt Brushes
- High Pressure Wheel Blasters
- Sealer Wax Spray
- Triple Foam Wax
- Blowing

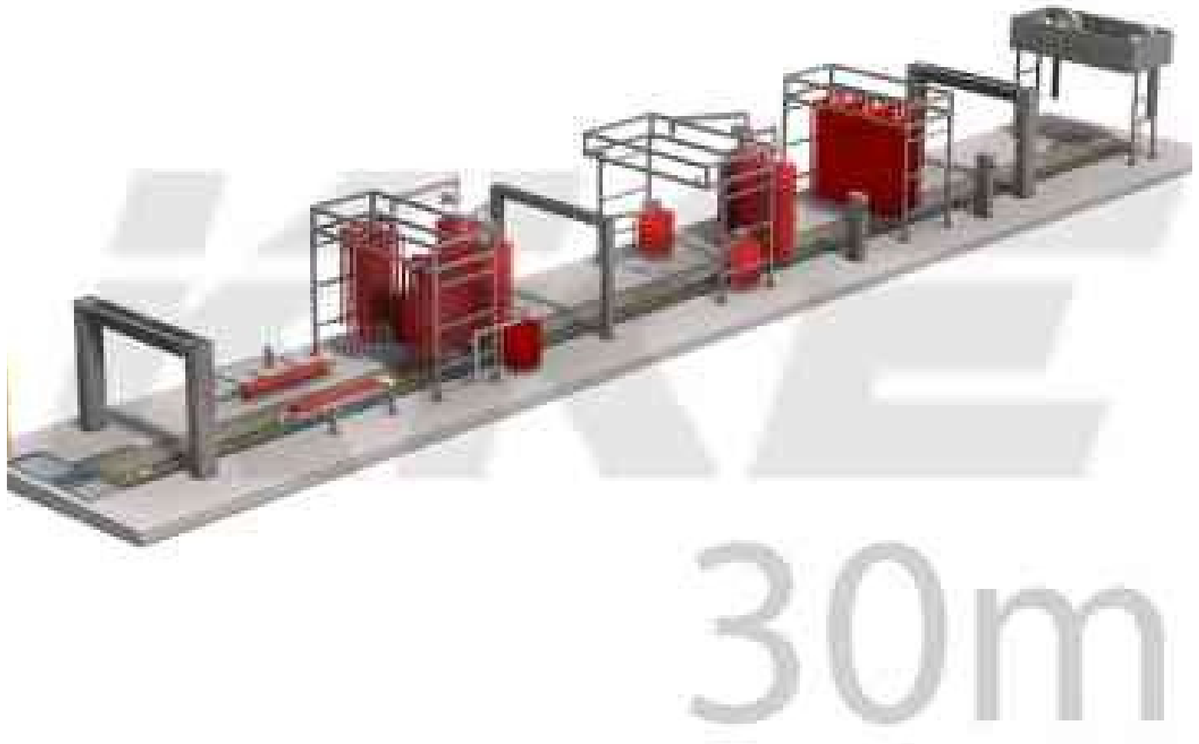

Throughput

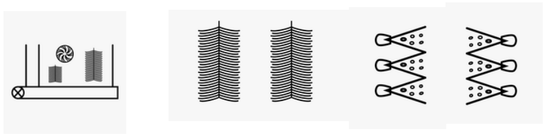

50 - 60 cars per hour

Washable Height

2.3m

KKE Gamma 30m

KKE Gamma 30 is a 30 m conveyor suitable for high throughput.

Wash Cycles (including optionals)

- Under Chassis Wash
- Prewash
- Foam Spray
- Lava Foam Spray
- Brushing Cycle
- Skirt Brushes
- High Pressure Wheel Blasters
- Sealer Wax Spray
- Triple Foam Wax
- Blowing

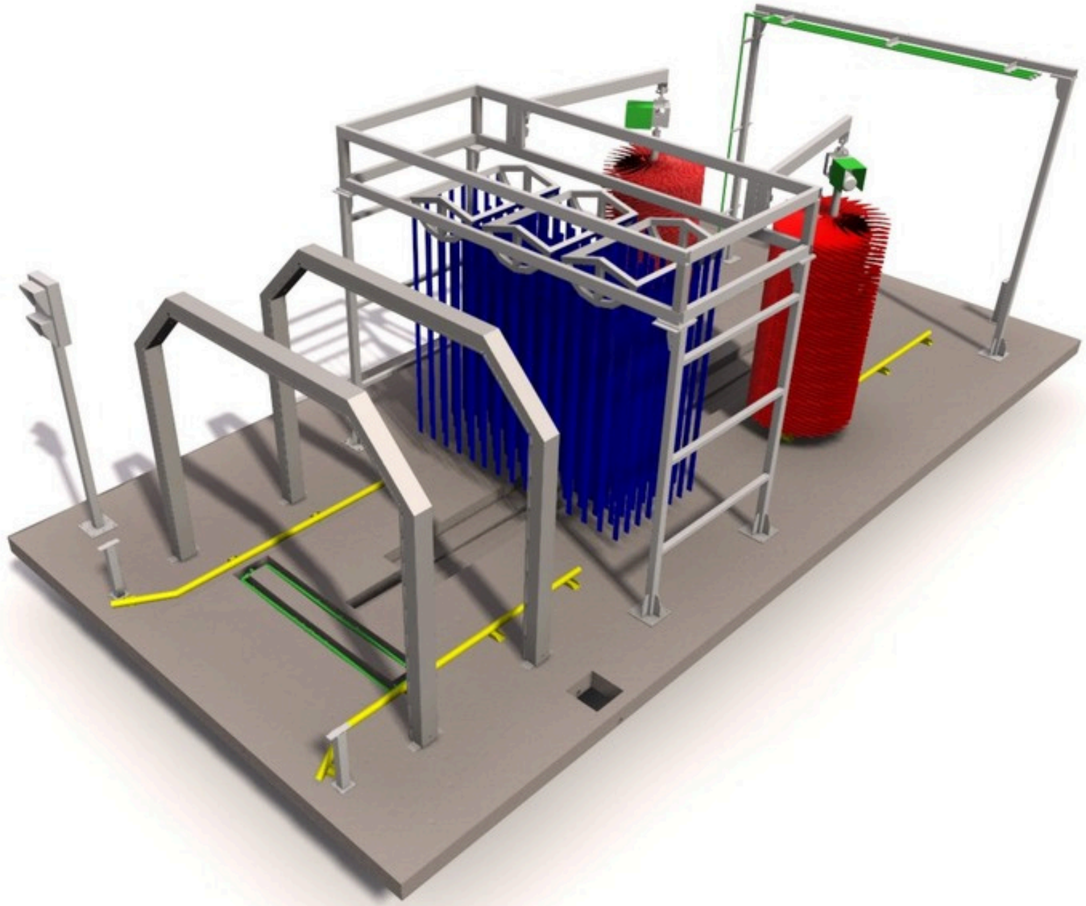

Throughput

100 - 120 cars per hour

Washable Height

2.3m
